

Jacob's Cup

Addendum to Tournament Rules

Due to the Covid Virus increase the Jacob's Cup Tournament Committee have made the decision to allow Players to participate in two different teams. The caveat being that the players may only play the equivalent of two full games in one day. The intent is to give teams the ability to have a full game Squad and two subs at the game. Teams with 13 players available from their tournament roster may not add additional players under this provision.

We do not want you to have 16 players at the game and pick up the two of the best players from another game.

The Jacob's Cup tournament committee would like to Thank You for your patience during this troubling time.
